Haykel Sriha

Software & AI Engineer

France | srihahaykel@gmail.com | +33 751 047 309 | Haykel Sriha | HaykelSriha | Portfolio

Work Experience

LCL — Intern – Software Engineer *Paris, France*
New Real Estate Client Experience (NECI) *Mar – Sep 2025*

- Developed **Java/Spring Boot microservices** for a mortgage tool used by **1,200 banking advisors**, with **PostgreSQL** and unit/integration testing.
- **Agile** workflow: code reviews, pair programming, **CI/CD** pipelines, collaboration with Business Analysts.

JoodLab — Intern – Fullstack Engineer *Tunis, Tunisia*
May – Aug 2024

- Built an **AI-based pricing recommendation system** (clustering with **Scikit-learn, Pandas**) for hotel revenue optimization.
- Full-stack: **Vue.js** frontend and **.NET Core** backend.

Academic Projects & Competitions

HEC Paris FinTech Hackathon — AI-powered crypto AML detection *Apr 2026*

- Built a full end-to-end AI app (frontend, backend, trained models) to detect crypto money laundering in DeFi among **150 selected hackers**.
- Deepened expertise in **financial compliance and DeFi**; strengthened pitching skills under pressure.

GripId x ENSICAEN — Facial authentication for remote meetings *Feb 2025*

- **99.8% accuracy** on LFW with **InceptionResNetV1**; activity tracking interface with **Node.js & Angular**.

Orange Innovation Academy — Entrepreneurial project *Oct 2024 – Feb 2025*

- Led a team of 6: market research, pitch, and web platform with **React.js, TailwindCSS, Firebase**.

Google x LCL Hackathon — Predicting customer financial behavior

- Predictive app (**Flask + React.js**) on **GCP**, AI models via **LangChain and Gemini**.

Personal Projects

TripRadar — Travel deal alert platform *2025*

- Monorepo: **FastAPI**, **Next.js**, **React Native/Expo**, **Airflow + dbt**, **PostgreSQL + Redis**, Firebase push notifs, GitHub Actions CI/CD.

AI Recruitment — Candidate management platform *2025*

- **Next.js / Firebase** app with CV analysis via **NLP embeddings** (Transformers.js), cosine similarity scoring, Kanban pipeline.

Anime Recommender — End-to-end data pipeline *2025*

- **AniList GraphQL** ingestion, **Python/pandas** ETL, **PostgreSQL** warehouse, **FastAPI** backend, Docker.

Education

ENSICAEN — With Honors – *Engineering Degree, Computer Science (AI, Image & Sound)* *Caen, France*
Sep 2022 – Aug 2025

- Machine Learning, Deep Learning, Software Architecture, Image Processing, Data Mining, Pattern Recognition, Graph Theory.

Esprit Prépa — MPSI/MP* – Ranked 5th – *Prep classes for grandes écoles: maths, CS, physics.* *Tunis, Tunisia*
Sep 2019 – Jun 2022

Certifications

Associate Data Engineer – DataCamp (Dec 2025) **Data Engineering Professional Certificate** – IBM (Feb 2026)

Skills

Languages: French (bilingual), English (fluent), Arabic (native), German (beginner)
Programming: Java, Python, C#, JavaScript, C++, C, PHP, SQL
Technologies: Spring Boot, FastAPI, REST API, JUnit, PostgreSQL, Redis, Docker, Maven, GitLab, Jenkins, GitHub Actions, CI/CD, Airflow, dbt, TensorFlow, PyTorch, GCP, .NET Core, React.js, Next.js, React Native, Vue.js, Node.js, Angular
Methodologies: Agile, Code Review, Hexagonal Architecture, TDD, Technical Documentation
Interests: Weightlifting, Music (8 yrs theory), Travel
